Compact Track Loader

Features

The Cat® 289C Compact Track Loader, with its vertical lift design, delivers excellent digging performance with outstanding drawbar power. The torsion axle suspension system provides superior traction, flotation and the ability to work in a wide range of underfoot conditions and applications.

The 289C features the following:

Torsion Axle Suspension. Fully independent torsion axle suspension is standard on C-Series Compact Track Loaders. This improves operation on rough terrain, enabling better load retention and operator comfort.

High Flow XPS Hydraulic System. Available for applications that demand maximum hydraulic work tool performance.

High Performance Power Train. Provides high engine horsepower and torque. Electronic Torque Management and standard two speed travel provide maximum performance and production capabilities.

Sealed and Pressurized Cab Option. Provides a cleaner and quieter operating environment.

Seat Mounted Adjustable Joystick Controls and Air Ride Seat. These features make the C-Series the industry leader in operator comfort.

Serviceability. Easy routine maintenance helps reduce machine downtime for greater productivity.

Work Tools. Caterpillar's broad range of performance matched work tools make the Cat Compact Track Loader the most versatile machine on the jobsite.
