

New Equipment

JCB 3CX Super Backhoe Loader

The JCB 3CX-15 SUPER backhoe loader is designed for superior backhoe performance, with an increased, 20-foot dig depth and greater reach for enhanced digging, trenching and lifting.

This backhoe loader model is well equipped with features to enhance performance and lower operating costs. For example, highly efficient hydraulics are partnered with a JCB-designed-and-built drivetrain, for class-leading efficiency and low running costs.
