

T595 Compact Track Loader

One Tough Animal

All-out horsepower, plus the highest lift capacity in the 500 platform

More power. More capacity. It all adds up to maximum performance for this chart-topping loader in the popular 500 frame size. The T595 weighs in at 8,055 pounds for impressive pushing power, and its powerful 74 hp engine delivers fast, efficient digging without the added size of the 600 platform. This vertical-path compact track loader reaches high and lifts heavy, plus it has standard M-Series features that allow operators to be more efficient and productive. Add optional 2-Speed travel for a productive speed boost during lift-and-carry tasks.

Certain specification(s) are based on engineering calculations and are not actual measurements. Specification(s) are provided for comparison purposes only and are subject to change without notice. Specification(s) for your individual Bobcat equipment will vary based on normal variations in design, manufacturing, operating conditions, and other factors.

NEW MODEL OVERVIEW	T595
Rated Operating Capacity (ROC)	2,200 lb. (998 kg)
Tipping Load	6,285 lb. (2851 kg)
Height to Hinge Pin	119 in. (3023 mm)
Lift Arm Path	Vertical
Operating Weight	8,055 lb. (3654 kg)
Ground Pressure	5.1 psi (35.2 kPa)
Cab Height	77.8 in. (1972 mm)
Horsepower	74 hp
Engine Type	2.4 L Turbo Diesel
Fuel Tank Capacity	36.5 gal. (138.2 L)
Hydraulic System Pressure	3,500 psi (24.1 MPa)
Hydraulic Standard Flow	17.1 gpm (64.7 L/min.)
